Standing With You for Your Protection

As an investor, you are entitled to understand the steps taken to give you confidence in the safety and security of your assets.

Millennium Trust's commitment to security sets the industry standard. A vigilant management team, systematic internal controls and comprehensive insurance coverage combine to create a secure environment to custody client assets.

Millennium Trust is regulated by the Illinois Department of Financial and Professional Regulation. In addition, the company is audited by two outside auditors: Scanlon & Mathews LLP and Plante Moran LLP.

In addition to regulation, programs are in place to address:

- Cash Asset Protection
- Professional Liability Insurance
- Business Continuity
- Client Information Privacy

Cash Asset Protection

Millennium Trust utilizes a cash investment program for IRAs and investments of idle cash up to \$1,000,000 using FDIC insured bank interest bearing demand accounts at four unaffiliated banks.

The first \$250,000 of uninvested funds in an IRA will be held in an FDIC insured bank account with Bank A. As IRA cash balances grow, balances above \$250,000 will be held in an FDIC insured bank account with Bank B. As cash exceeds \$500,000, funds will be held in an FDIC insured bank account at Bank C. Once cash exceeds \$750,000, funds will be held in an FDIC insured bank account at Bank D. When distributions are taken or investments purchased, funds will be withdrawn in the reverse order of their deposit.

Bank D				\$250K
